Cutting edge technology combined with GPS connects you to the best armed and medical responders in the country — over 5000 of them, nationwide.

Armed and Medical Response

HOW IT WORKS

1. **Hold for Help**
   Hold the red HOLD button in your Auto Pedigree 24/7 app for 3 seconds.

2. **Closest responder activated**
   Your panic alert is distributed automatically to the 5 response vehicles closest to your location.

3. **GPS navigation**
   The accepting response vehicle is navigated to your exact location through built-in GPS and accurate tracking.

Instant client profile

Your identity and other key information are shared automatically with the dispatched response vehicle and the control centre.

Control room back-up

The control centre oversees all activations. It can dispatch additional resources such as SAPS and EMS if required.

Medical transport

Emergency response and stabilisation is covered. Transport to hospital is billed to you or your medical aid.

Fair use is 4 armed response call-outs per covered person every 12 months. A genuine emergency is never charged for — see the terms at the back.

AFTER A ROAD ACCIDENT

Road Accident Fund Claims

Injured in a road accident? We run the claim for you.

The Road Accident Fund provides financial support to people injured or killed in road accidents caused by another driver's negligence. Claiming is slow and full of paperwork. Your membership puts a claims team, a lawyer and the reports behind you — and it costs you nothing.

You keep 100% of your payout. Legal representation, administration, claims management, medical and legal reports, and loss of support and actuarial reports are all included at no cost.

RAF Assist

HOW TO CLAIM

1

Get in touch

Email support@projecthelp.co.za, or tap RAF on the app's home screen.

2

Verify your cover

Give your ID number or membership number so we can confirm your membership.

3

We take it from there

Our claims team contacts you and guides you through every step of the claim.

You and your partner

The main member, and your spouse or partner — including marriages under the Marriage Act, the Recognition of Customary Marriages Act, the Civil Union Act, or the tenets of any Asiatic religion.

Your children

Dependent children under 21 — adopted, foster and step-children included, and children who are permanently reliant on your support — or up to 25 if they are full-time students and unmarried.

- Claim within 3 years of the accident
- Hit-and-run: within 2 years
- Accident must happen in South Africa
- Membership active for the whole claim

RAF Assist is not insurance.

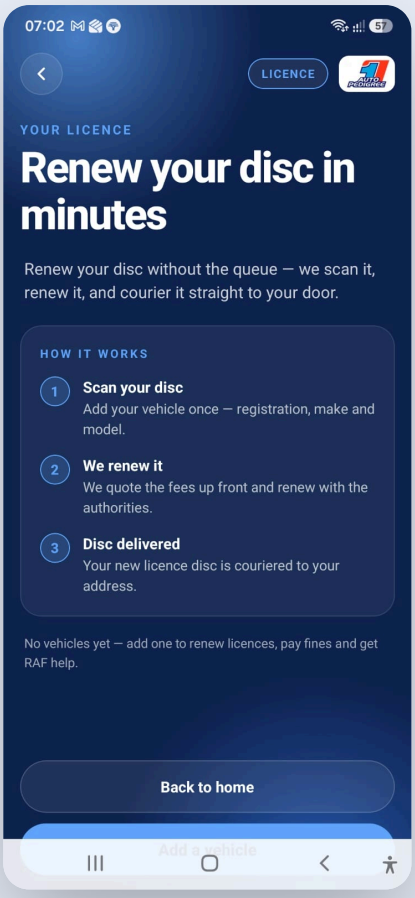

It is a service that helps you claim from the Road Accident Fund. We cannot guarantee a payout, but we make every reasonable effort to reach a settlement — and the information you give us must be complete and accurate, because anything incorrect can jeopardise the claim.

1. Armed and Medical Response

Armed Response and fair use

Armed response is there for emergencies. If you are in danger, call it — a genuine emergency is never charged for, and you should never hesitate because of what it might cost.

Fair use is 4 armed response call-outs per covered person every 12 months.

A charge of R450.00 (VAT exclusive) applies only to a call-out that is not a security or medical emergency — a cat in a tree, or a responder called out to impress friends — and to call-outs beyond the fair-use allowance once it has been reached.

Medical Assistance

Project Help manages and covers the dispatch of medical and ambulance services to the User in an emergency. If the User needs stabilisation and transport to hospital, the bill is for the User's account or their medical aid. Where applicable the emergency provider may bill the User's medical aid for transport. The service includes:

- Emergency response and stabilisation (guaranteed)
- Medical transportation (subject to an alternate reimbursement model)
- Emergency medical information (telephonic advice only)
- Medical assistance hotline (telephonic advice only)
- Telephonic trauma support lines (telephonic advice only)

Our medical professionals prioritise a transfer based on medical condition, urgency, the patient's state and fitness to travel. The User understands that use of the Services may result in charges for excessive use of services or goods received from a Third Party Provider. Full terms and conditions: www.projecthelp.co.za/terms

2. RAF Assist Benefit

The RAF Assist benefit is not an insurance product. It is a service provided to help you claim from the Road Accident Fund.

The benefit covers you as the main member; your spouse or partner (under the Marriage Act, 68 of 1961; the Recognition of Customary Marriages Act, 68 of 1997; the Civil Union Act, 17 of 2006; or the tenets of any Asiatic religion); and any child under the age of 21 who is dependent on you (including adopted, foster and step-children, as well as children who are totally physically and/or mentally handicapped and reliant permanently on your support), or 25 years if they are full-time students and not married.

This service is only available if the motor accident happened within the Republic of South Africa.

A claim against the Road Accident Fund must be lodged within three years of the incident, except for hit-and-run events, which must be lodged within two years.

You must provide complete, accurate and true information at all times. Any incorrect information can jeopardise your claim with the Road Accident Fund.

We will assess the conditions of the claim and whether a claim exists against the Road Accident Fund.

You are free to get independent second opinions on the merits of the claim, but we will not be responsible for any costs incurred.

We will not cover any costs incurred by you being approached by an outside party. You do not have to use our services, but we will not be liable for any costs incurred by outside parties who help you.

At the time of the incident, you must comply with all the legal and regulatory requirements of the Road Accident Fund.

We do not guarantee a pay-out from the Road Accident Fund, but we will make all reasonable and necessary efforts to reach a settlement.

Your contributions must be fully paid at the time of the accident.
